
Add payment account

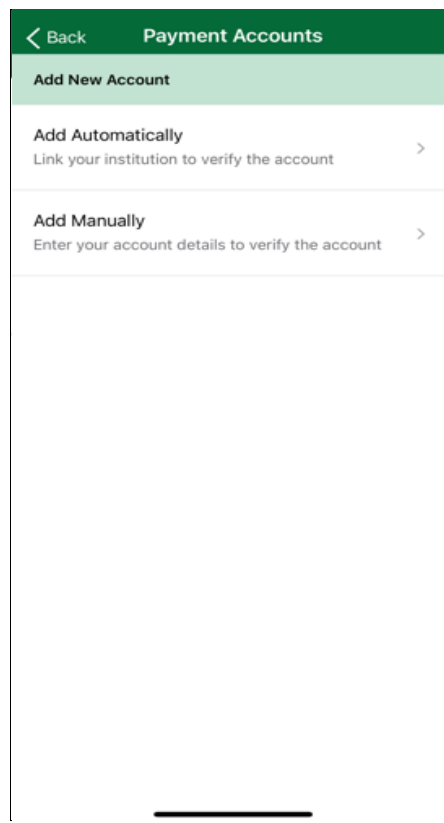

A payment account must be added before it can be used to process one-time or recurring payments. Payment accounts can be added automatically as well as manually. You can add multiple payment accounts, and edit or remove them as needed.

Add a payment account automatically

To add a payment account automatically:

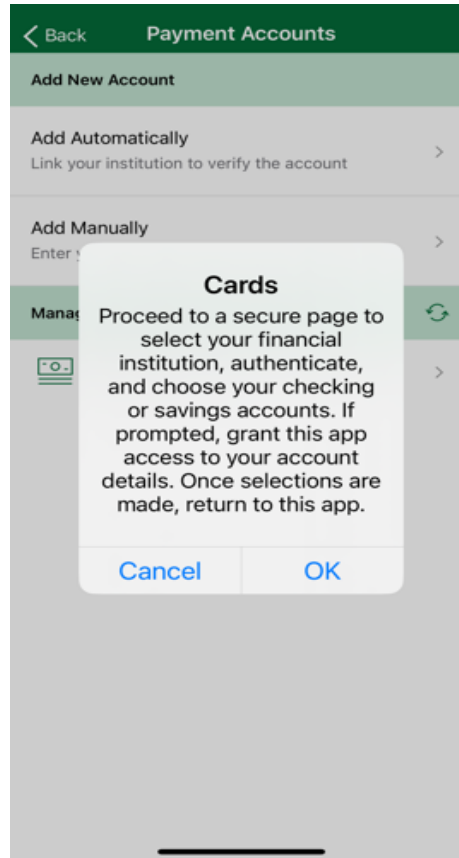

Navigation: CardHub login > Select card > Pay Balance > Manage payment accounts

1. Select **Add Automatically**.

The next screen indicates that you will be taken to your mobile's browser to search or select your payment accounts.

2. Select **OK**.

3. Search or select your financial institution (FI) and proceed with the next steps.

Please select the option/Enter only option number (eg: 1 or 2 or 3)

☐ Phone - Text : ***.*-.-. .

☐ Phone - Voice : ***-**-***

☐ Email - E Mail : k*****@

<>📄📖📁

Once you authorize, you have to select at least one account to continue with the account linking process. Once the account selection is complete, the **Back to the App** screen appears.

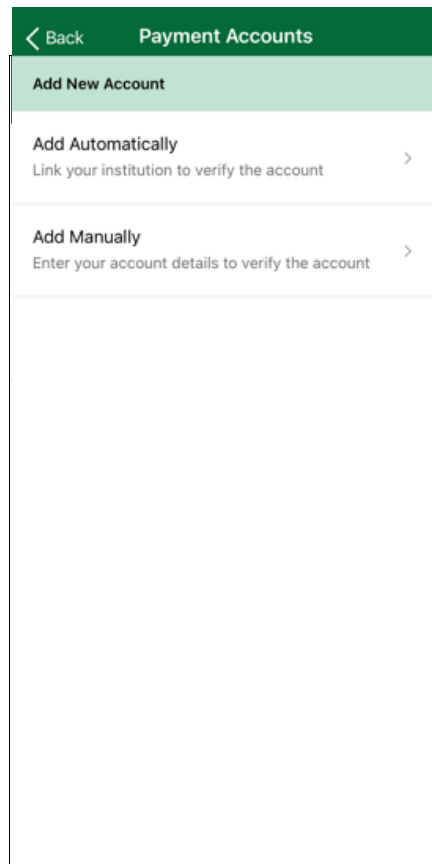

Navigate back to CardHub manually. The Payment Accounts screen now shows the newly added account.

Add a payment account manually

To add a payment account manually:

1. Select **Add Manually**.

The **Add Account** screen displays a blank form.

2. Enter the following information manually and select **Add Account**:

- Account Type
- Account Number
- Routing Number
- First name of account holder
- Last name of account holder
